during the week of 20-25 July, the Minister of the Interior sent an order to all East German plants, requiring the plant managements and the "intelligentsia" of each plant to prepare a report on the true state of their factory. These reports are to cover mistakes made in the past, current difficulties, the mood of the workers, and general conditions in the factory. The reports are to be true and accurate. Each plant manager is to deliver his report directly to Karlshorst by 1 August. Reports turned in thus far have seemed to portray accurately working conditions and attitudes of the workers.
